1. List the members of your group below. Underline your name.

2. List the categories of related work.

3. For each of the project proposals outlined in class:
   (a) Note the proposers' names.
   (b) List three tasks in each of (1) the core, (2) the desirable, (3) the optional layers, as well as three (related) tasks not in the projects.
   (c) Briefly describe a representative demo of the project.

4. Select two guideline or rule among those recently discussed in class (or from the readings) that you found most significant and useful. For each guideline:

   (a) State the guideline.

   (b) Indicate its location in the textbook (page number, item number).

   (c) Provide a brief example that illustrates problems caused by not following the rule.

   (d) Briefly explain, with details specific to your example, the problems caused by the above text.

   (e) Revise the earlier text to follow the rule.

   (f) Briefly explain how the change addresses the problems noted earlier.
