

Today: Shortest paths. 24.{0,1,2}.

Next class: Quiz 2.

Reminders: Newsgroup. Reading. Coding. Practice. Don't fall behind.

1. List the members of your group below. Underline your name.

2. Trace the execution of the Bellman-Ford single-source shortest paths (SSSP) algorithm on the following directed graph, with vertex A as the source. Use the textbook's Fig. 24.4 (p. 652) as a model. Relax edges in lexicographic order. Annotate predecessor edges with check marks.

[additional space for answering the earlier question]

3. Trace the execution of the DAG-SHORTEST-PATHS algorithm on the following DAG, using the textbook's Fig. 24.5 (p. 656) as a model.

[additional space for answering the earlier question]
