- 1. List the members of your group below. Underline your name.
- 2. Provide a Standard ML definition of an uncurried map function. Explain why it is correct. Trace its evaluation on a representative example. [Reminder: Test your work using SMLNJ, post questions and comments on the class discussion forum.]

3. Repeat Question 2 replacing uncurried with curried.

4. Repeat Questions 2 and 3 replacing map with reduce.
