

Continuing work from the previous class, this exercise augments student presentations of related-work sections and related class discussion.

1. List the members of your group below. Underline your name.
  
2. List the different categories of related work discussed in class.
  
  
  
  
  
  
  
  
  
  
  
  
  
  
  
  
  
  
  
3. For each category listed for Question 2, (1) indicate how many references you cite in your related work section and (2) provide a descriptive sentence relating one reference to your project.

4. Critique each related-work section presented in class, identifying each by title and presenter. Indicate how many references in each category are noted, and how well they are related to the project (on a scale of 0–4).

5. Briefly note three significant things you learned from this week's class work, in relation to your own work on documenting related work.
